Dear Patient,

Did you know that there is an estimated 33% of people who used to keep regular dental wellness check-ups that currently have not seen the dentist in 2 years? We know there are many reasons for this such as dental phobia, financial concerns, not seeing the urgency of maintaining your oral health, and time constraints just to name a few. Whatever the reason, it could cause overall health problems and be very costly.

As you may be aware, letting small dental problems become bigger ones can lead to pain, absences from work and school, and increased expense. To add to the growing importance of dental health, there are many links between poor oral health and potentially life-threatening diseases like diabetes, heart disease, certain cancers, rheumatoid arthritis, and premature birth. In order to combat this growing trend, we have decided to offer an in-office discount plan.

Our dental health discount plan is a reduced fee dental plan that allows individuals and families, just like you, to enjoy the benefits of quality dental services at prices that make sense in today's economy. Because we cannot know what the future holds, this is a way for us to give back to the community and help eliminate problems BEFORE they happen. We care about you and your OVERALL health and want nothing more than to help prevent potential health issues, whether dental or otherwise. Quality care that is consistent, convenient and affordable is the key to a healthy smile and healthy body.

Our plan includes:

- Benefits for an individual or an entire family
- 2 regular cleanings (or periodontal cleanings) at NO EXTRA CHARGE
- Exams every 6 months, oral cancer screenings and x-rays at NO EXTRA CHARGE
- Most additional treatment is at 20% off the regular dental fees with NO DEDUCTIBLE
- No waiting periods, benefits can begin immediately
- No limits or maximums (There is a \$1,000 maximum on implant services)
- No denied procedures

Our plan only costs \$350/year for adults, spouse, &/or domestic partners, plus \$300 for each additional family member (under 21). There is a \$60 increase in the fee if you need periodontal therapy. As an added bonus, you will also be provided with a 20% discount on most dental services without a cap or maximum. (There is a \$1,000 maximum on implant services). Please call our office to find out more information about our new program.
